RE: INFORMATION TO BE PRESENTED AT ZONE CHANGE PUBLIC HEARINGS

In compliance with Kentucky Revised Statutes (KRS) Chapter 100.213 before any zoning change can be approved, the Planning and Zoning Commission must hear evidence that one or more of the following conditions apply to your case:

1. Is the present zoning of this property inappropriate and how is the proposed zoning more appropriate?
2. Have there been major changes of an economic, physical or social nature within the area for which a zone change is proposed, which were not anticipated by the adopted Comprehensive Plan? What are these changes specifically? How have they substantially changed the character of the area?

Also, the Planning and Zoning Commission will be aided in making a decision if you provide information relating to the following issues:

1. How will the proposed zone change alter the population density and thereby increase the load on public facilities (sewer, water, streets, schools, etc)?
2. How will the proposed zone change affect adjacent properties?
3. Why the property cannot be used in accordance with the existing zoning?
4. Are there similar uses as the proposed use in the area?

Please present the above information at the public hearing for the proposed zone change so that the Commission may make the appropriate decision regarding your proposal.
